

Service Hours and SCRIP Programs

The mission of ICS is to foster in each student, spiritual growth, academic excellence, and moral integrity. We believe that children succeed when the family, parish, and school communities partner on their behalf. We also believe that families have a responsibility to invest in the success of the school community.

Since direct tuition payments and subsidies from the Parish are not sufficient to fund all programs, we have come to recognize that all members of the ICS community need to participate in supporting a rich and broad program for our students.

Some of the ways we do this are by asking our families to fulfill Service Hour requirements and fundraising through our SCRIP program.

Service Hours:

ICS has implemented a program of Mandatory Service Hours. This program encourages broader participation and recognizes those who support our school. It also provides a means for those not able to provide service hours to make a buy-out payment in lieu of performing service hours.

SCRIP Purchase Program:

ICS has implemented a program of Mandatory SCRIP purchases for families with children in grades K-8. This program encourages broader participation and recognizes those who support our school. It also provides a means for those not able to purchase SCRIP to make a monetary contribution to ICS in lieu of purchasing SCRIP.

SCRIP is the least time consuming and most cost effective manner to raise money for ICS. In fact, it costs our families nothing to participate. Purchases with SCRIP amount to an average 10% donation back to the school. This is not an insignificant amount considering the hundreds of ICS families whom consume SCRIP products every week.

Questions? Contact the [SCRIP coordinator](#).
